**Certificate 2.2 (EN 10204) delivery with FRM, FRM-NOC, SAV**

The test report certificate 2.2 acc. EN 10204 is always delivered with the product. Up to now when ordering in batches of more than 1 unit, it was included only in 1 box marking this one with "CERTIFICATE" sign in the outside.

Starting on 2024-11-05, we're changing this process and we're including the certificate in every unit, so there'll be no indication outside of the box. This change will start and is applicable to the new orders. Open orders already placed will be delivered with the old method.

This information does not affect when ordering a 3.1 certificate, which is always 1 certificate per unit in the product box.

## Updated data sheet for Gas and air filters

We're pleased to announce the release of a **revised data sheet** for our gas and air filters. The new data sheet complies with a **new format** that we intend to use for all revised and new data sheets for DUNGS products. Important **information** such as **dimensions and flow curves have been added**.

The new data sheet can be found **on our website**. As of 2025-01-01, the data sheet will be updated again, whereby designations and article numbers will be changed in accordance with the further description.

## Standardised nomenclature of flanged Gas filters

**From 2025, flanged DUNGS gas filters will follow a new nomenclature.** The aim of this new nomenclature is a designation that only contains variable properties. This intends to simplify the designation by dropping superfluous information and to ensure clarity by making the differences clearly visible.

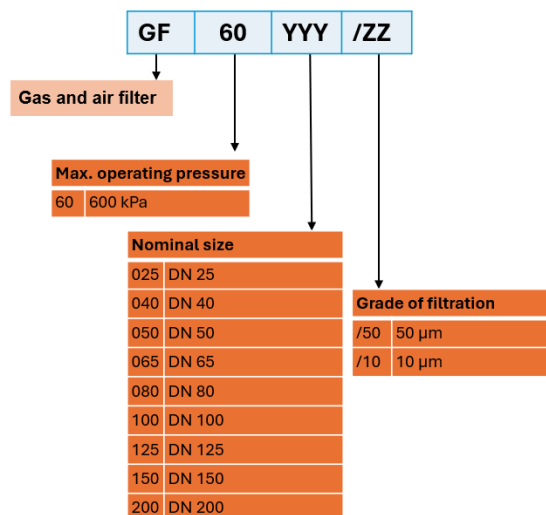

The products will not undergo any technical changes, only the designation will be changed. The order numbers for the Gas filters won't change either. The old designations, valid until 2024-12-31, and the new designations, valid from 2025-01-01, are shown in the table below.

Order no.	Old designation (til 2024-12-31)	New designation (from 2025-01-01)
279861	GF 60025/3 VS 4 x G ¼	GF 60025/50
279853	GF 60040/3 VS 4 x G ¼	GF 60040/50
279854	GF 60050/4 VS 4 x G ¼	GF 60050/50
279855	GF 60065/4 VS 4 x G ¼	GF 60065/50
279856	GF 60080/4 VS 4 x G ¼	GF 60080/50
279857	GF 60100/4 VS 4 x G ¼	GF 60100/50
279858	GF 60125/3 VS 4 x G ¼	GF 60125/50
279859	GF 60150/3 VS 4 x G ¼	GF 60150/50
279860	GF 60200/3 VS 4 x G ¼	GF 60200/50
294773	GF 60025/3 VS 4 x G ¼ 10µm	GF 60025/10
294774	GF 60040/3 VS 4 x G ¼ 10µm	GF 60040/10
294775	GF 60050/4 VS 4 x G ¼ 10µm	GF 60050/10
294776	GF 60065/4 VS 4 x G ¼ 10µm	GF 60065/10
294777	GF 60080/4 VS 4 x G ¼ 10µm	GF 60080/10
294778	GF 60100/4 VS 4 x G ¼ 10µm	GF 60100/10
294779	GF 60125/3 VS 4 x G ¼ 10µm	GF 60125/10
294780	GF 60150/3 VS 4 x G ¼ 10µm	GF 60150/10

2024-10-31 | #014

The information omitted is the specification of the screw plugs - as each flanged gas filter has four screw plugs - and the indication /3 or /4. The version /4 stands for a slightly different housing variant for nominal sizes DN 50 to DN 100. Since 2009, we have only been selling this housing variant. Therefore this is historical information that is no longer relevant.

As we have also been offering finer filters with 10 µm in addition to our standard flanged Gas filters with a grade of filtration of 50 µm since last year, we have added the filtration to the designation. This results in the **following type code for the flanged Gas filters from 2025**:

Due to different stock levels, **there may be different designations** for the gas filters at the beginning of **the transition period**. DUNGS will deliver the products with the previous designation until the stock is used. As soon as the stocks are empty and newly produced items are delivered, these will contain the updated designation. Regardless of whether the old or new designation is on the product, the **products are identical**.

## Changed order numbers for existing spare parts

The **new nomenclature** will also be **applied to the replacement filter inserts** of the flange filters. In future, the Gas filter version of the filter insert will be clearly described. The change will be done to **2025-01-01**.

Additionally, the **replacement filter inserts** will **receive new article numbers**. This is due to a change in the packaging process. Contents of the spare parts sets have not changed. Each **set contains a filter insert and an O-ring** for the corresponding Gas filter. Pictures of the sets are shown in our new data sheet.

Phase-Out Product (till 2024-12-31)		Successor Product (from 2025-01-01)	
Order no.	Designation	Order no.	Designation
244562	Replacement filter GF /3, DN 25	304914	Replacement filter GF 60025/50
222691	Replacement filter GF /3, DN 40	304915	Replacement filter GF 60040/50
222692	Replacement filter GF /3, DN 50	-	No replacement
257124	Replacement filter GF /4, DN 50	304917	Replacement filter GF 60050/50
222693	Replacement filter GF /3 /4, DN 65	304918	Replacement filter GF 60065/50
222694	Replacement filter GF /3 /4, DN 80	304919	Replacement filter GF 60080/50
222695	Replacement filter GF /3 /4, DN 100	304920	Replacement filter GF 60100/50
222696	Replacement filter, DN 125	304921	Replacement filter GF 60125/50
222697	Replacement filter, DN 150	304922	Replacement filter GF 60150/50
222698	Replacement filter, DN 200	304923	Replacement filter GF 60200/50

## Additional spare parts (filtration 10 µm)

We added flanged Gas filters with a **grade of filtration of 10 µm** to our product range last year. We have not yet offered replacement filter inserts for 10 µm. **From 2025-01-01** we will be **adding these spare parts sets** to the spare parts list (they are already available). The sets are structured in the same way as the existing ones. This means each set **contains a filter insert and an O-ring** for the corresponding Gas filter.

New Product (from 2025-01-01)	
Order no.	Designation
304870	Replacement filter GF 60025/10
304871	Replacement filter GF 60040/10
304873	Replacement filter GF 60050/10
304874	Replacement filter GF 60065/10
304875	Replacement filter GF 60080/10
304876	Replacement filter GF 60100/10
304877	Replacement filter GF 60125/10
